

# Facade Brush Allround Finish 1583 Recycled plastic NEW DESIGN

## Product properties

Facade brush with ergonomic handle with good and secure grip, the handle is made from 100% recycled material. Versatile, durable all-round fibre mix with good application properties for all water-based wood protection and facade products. Flexible brush fibres that minimise splashing and distribute the material efficiently, perfect for painting vertical surfaces. The brushes are suitable for painting tasks where basic properties are a priority and can be mounted on the new Flügger extension pole.

- All-round fibre mix
- Handle made from 100% recycled material
- Facade brush, Angle

## Product use

Painting of facades and woodwork. Rinse the brush in water before use and work thoroughly into the paint. Store the brush in airtight packaging when not in use and avoid storing the brush in water.

## Cleaning and Maintenance

Clean brushes using Fluren 59. Brush cleaner, Fluren 37 Basic cleaner or liquid soap. For non-aqueous paints, mineral turpentine can be used instead.

## Useful Information

Disposal: Remove as much paint as possible from brushes before they are disposed of as small, combustible waste items.

## Good practice

Remove as much paint as possible from tools before cleaning. Do not pour liquid paint residue or cleaning fluid down drains. Clean the paint residue from the brushes right up under the ferrule. Paint residue under the ferrule and between fibres will coagulate and result in brittle bristles. Avoid straining the bristles during drying and store the brush dry.

## Technical Data

|                 |                       |
|-----------------|-----------------------|
| Brush           | Synthetic             |
| Shaft           | Recycled plastic      |
| Available Sizes | 75 mm; 100 mm; 120 mm |
| Metal type      | Stainless steel       |
